SEL & Integrated Display

The RKB offers interactive versions of both the AEL and SEL, as well as a new integrated display.
Please choose one of the options below:

FEMA Preparedness Grants Authorized Equipment List

The Authorized Equipment List (AEL) is produced by the FEMA Grant Programs Directorate, Department of Homeland Security. It is the generic list of equipment items allowable under several DHS grant programs, including the Homeland Security Grant Program. This choice displays only the official AEL items.

InterAgency Board Standardized Equipment List

The Standardized Equipment List (SEL) is produced by the InterAgency Board for Equipment Standardization and Interoperability (IAB), and contains minimum equipment recommendations for response to WMD incidents. It includes recommended features and operating considerations. This choice displays only the SEL.

Integrated AEL / SEL Display

To support the response community, the RKB has developed an integrated format that displays both SEL and AEL information in a single record. This choice will provide all of the information from both lists without the need for cross-references.

DHS Authorized Equipment List

Search Phrase:
